MAILS IN PORTO RICO

Natives Incredible When Told That Sealed Letters Were Held Sacred.

CAPTAIN W. H. ELLIOTT'S

Experience on an Official Tour of the Island—Natives Have Only Intrusted Unimportant Letters to the Mails. No Dissatisfaction or Danger of Rebellion Has Been Reported.

Washington, March 23.—Acting Postmaster General Heath yesterday received a personal letter from Captain W. H. Elliott, director of posts of Porto Rico, relating experiences on an official tour of the island which he has just completed. Director Elliott states that the people were incredulous when he told them that sealed letters would be held in the mails, and that any one who meddled with mail in transit or in possession of the government would be severely punished. He says the Porto Ricans intrust to the mails only unimportant letters, never mailing any matter regarded as private or valuable, as the mails have frequently been rifled. The roads in the island were dry and the trip was therefore pleasant, although in ordinary weather the roads are almost impassable.

The municipal authorities in the island, Captain Elliott reports, regard their relief from the trouble and expense of carrying the mails as the greatest blessing. The municipal authorities have been compelled to carry the mails without compensation as a sort of interchange of governmental courtesy, an imposition required by the general laws of the island.

The people, says Captain Elliott, have returned to their regular avocations, and in the farming communities the crops are in fine prospect and the people expect to be prosperous. All are greatly pleased with the coming of American rule. Director Elliott states that the report of dissatisfaction or danger of rebellion among the people is untrue, and that they are entirely satisfied with American rule and regard it as a blessing.

ALGER OFF FOR CUBA.

Takes His Detroit Business Partner With Him—Object of the Trip.

Washington, March 23.—Secretary Alger and a party of friends left here last night for Savannah, Ga., on their way to Cuba. They occupied a special car on the train leaving over the Southern railroad, which is scheduled to reach Savannah late this afternoon. At the latter place the party will take the transport Ingalis, in which the voyage to Havana will be made. The secretary's trip has two objects in view; first, to familiarize himself with existing conditions in Cuba, and second, to obtain a brief respite from the routine of office duties. Whether the trip will be extended beyond Havana will depend entirely upon circumstances that may hereafter develop. Those who accompanied the secretary included the following: M. S. Smith, his business partner at Detroit; A. M. Henry, his brother-in-law; and H. G. Meredith at Detroit; Major George H. Hopkins, his military aide; Colonel W. D. Mann and Victor L. Mason, his private secretary.

DEWEY DAY

Washington's Proposed Peace Celebration to Be National in Character.

Washington, March 23.—A committee of citizens who are arranging for a peace jubilee in Washington next May called at the navy department to secure, if possible, the attendance of Admiral Dewey on that occasion. Their application was made directly to Secretary

Long. They stated that the proposed peace celebration will be exceptional, in the fact that it is to be practically national in character and that this would justify the request that the hero of Manila be summoned to attend. The secretary listened with interest to what the committee had to say and replied that he would confer with the president on the subject. It would be a question, he said, simply as to whether or not the occasion would justify the admiral in leaving his duties at Manila.

False Report Regarding Sherman. Washington, March 23.—General A. W. Greely, chief of the signal corps, last night made public the following signed statement with reference to the report that the signal officer at Guantanamo had confirmed the report of ex-Secretary Sherman's death: War department, Office of Chief Signal Officer, WASHINGTON, March 23. To the Associated Press: Captain Leigh telegraphed me from Santiago that the information regarding Mr. Sherman's alleged death came direct from the representative of the French Cable company at Guantanamo and that the responsibility of the signal corps is limited to the telegraphic transmission of the story. Yours truly, A. W. GREELY.

Will Enlist Machinists. Washington, March 23.—Arrangements have been made at the navy department for the enlistment of a limited number of machinists of the first class and ordinary seamen on board the receiving ship Wabash at Boston, the Richmond at Newport Island, the Vermont at New York and the Franklin at Norfolk and at the naval recruiting station at Chicago. The department hopes that at Chicago many valuable men will be enlisted who have had service on the great lakes. The machinists of the first class must be machinists by trade who have had experience with the marine engines at sea.

SPANISH FLAG

Presented to President McKinley at Brunswick.

Thomasville, Ga., March 23.—President McKinley and Vice President Hobart returned to the home of Senator Hanna last evening much refreshed and pleased with their trip to Jekyll island. The visit has been one of quiet enjoyment throughout. Politics cut not the slightest figure. The meeting of Speaker Reed and the president was confined to two exchanges of common courtesies in the presence of a number of other persons.

At Brunswick, on the return trip, all the shipping, including three Spanish vessels, saluted the president's cutter, the Colfax. H. H. Raymond, southern manager of the Mallory line and the big steamer Rio Grande, ablaze with bunting and flags, presented to the president a good sized Spanish flag from the bark Taffalla, which had been waved in salute as the president's boat steamed down the harbor to Jekyll last Monday. It was accompanied by the following note: This is the first Spanish flag which saluted President McKinley after the conclusion of peace between the United States and Spain and is now presented to the president at Brunswick, Ga., March 23, 1899, with the compliments of Rosendo Torres, late vice consul of Spain. This courtesy greatly pleased Mr. McKinley.

TO FIGHT THE BELL

Independent Telephone Interests Said to Be Forming a Trust.

Chicago, March 23.—The Record today says: Independent telephone manufacturing interests have organized to fight the Bell Telephone company with a trust of their own. At a secret session yesterday the ways were discussed for the launching of a \$7,000,000 combine.

W. T. Blaine, president of the Victor Telephone Manufacturing company of this city, is in charge as promoter-in-chief. It is represented that operations are in hand or in prospect for 90 per cent of the factories producing "independent" apparatus. Details as to the plants this includes, as well as the sources from which capital for their acquisition is to come, are most zealously guarded, but the names of John J. Mitchell, president of the Illinois Trust and Savings bank; William P. Williams, assistant United States treasurer, and Mr. Merigold, a New York banker, are mentioned as the financial sponsors of the deal.

DEFENDS TRUSTS

Professor Ashley Thinks Their Power to Rule Prices Overestimated.

London, March 23.—At a banquet of the British Economic association Sir Robert Giffen, former assistant secretary of the board of trade, presiding, Professor Ashley delivered an interesting address on the position of trusts in the United States.

Professor Ashley said the trusts were mainly the outcome of an attempt to get rid of the disastrous effects of cut throat competition. The public, in his opinion, had greatly exaggerated their power to rule prices. He contended that the general tendency of trusts in the United States was in fact that to lower prices, as had been seen in the case of the Standard Oil trust. Undoubtedly the trusts gave an advantage to the capitalists, but they also tended to secure steadiness in the rate of remuneration for labor and to promote continuity of employment and an increased stability in industry.

Suffering From Depression.

London, March 23.—The Rome correspondent of The Daily Telegraph says: "The pope is beginning to suffer from depression. During the service on Sunday he asked one of his personal attendants how many in the congregation he (the attendant) thought really rejoiced in his recovery. Then he added despondently, 'What mockery it is—this thanksgiving for my recovery. I shall not live a week.' The exclamation was followed by a prolonged and alarming fainting fit."

AFFAIRS AT HAVANA

Weyler's Decree Suspending Executions and Judgments Now About to Expire.

BARRACKS SITE CHOSEN

For the Garrison of Regular Troops. Military Assembly Unable to Raise Funds and Is Likely to Dissolve on Saturday—Political Party Forming in Porto Rico.

Havana, March 23.—General Weyler's decree suspending executions upon judgments will expire with the present month, and the situation, especially regarding mortgages, is somewhat complicated. Creditors and debtors alike, in anticipation of the expiration of the decree, have been petitioning Governor General Brooke for weeks to take action with a view to an equitable adjustment. The form of a new decree has been carefully considered by General Brooke and his advisory cabinet, and the decree will be issued on or before March 31.

Generals Chaffee and Ernest yesterday chose a site near Buena Vista for a barracks for the garrison of regulars. It is on a ridge overlooking the sea, and is now occupied by the One Hundred and Sixty-first Indiana volunteers. There will be 23 company buildings, with officers' quarters, to be occupied by the Seventh cavalry and Eighth infantry regiments. The work of construction will be begun next week. The plans call for running water and a complete sewer system.

The military assembly, owing to the absence of a quorum, held no meeting yesterday. Saturday's meeting is likely to be the important session of the week. The feeling is now that, as it is clearly impossible for the assembly to raise funds for the use of the army, the most logical course, all things considered, would be to disband the army and disband. A motion to this effect will undoubtedly be made and will provoke a hot contest.

Cuban Generals Diaz, Montenegro, Robau, Nodarse, Betancourt and Peraza held another secret meeting last night. It is supposed, that having consulted their commands, they are now prepared to take the side of General Gomez against the assembly.

A night school has been established, where intending Cuban voters may learn to read and write. Orders have been issued to the police to confiscate all revolvers carried by civilians, and already the results are a large collection of miscellaneous arms.

RADICAL PARTY

In Porto Rico Will Organize on an American Platform.

San Juan de Porto Rico, March 23.—The leaders of the Radical party have decided to organize a Republican party in Porto Rico with a thoroughly American platform. They will endeavor to unite all factions. The platform will be submitted at a meeting to be held and it will endorse the policy of President McKinley, will pledge fidelity to the American flag, held the prospect of annexation to the United States, express the belief that the Porto Rico courts be trusted with the civil government of the island, but will declare a willingness to await the action of congress. The platform will also favor free suffrage, public schools, reform in taxation, free trade with the United States, the establishment of a gold basis for the currency, the American system for the judiciary and will pledge the party to lend every effort towards civilization and to teach the inhabitants to become loyal to the United States.

Probably Fatally Injured.

Rushville, Ind., March 23.—William Borders, four miles west of town, was dangerously injured yesterday by a vicious horse. He was leading the animal with a halter, when it reared on its hindquarters and leaped on Mr. Borders. His arms and several ribs were broken. The horse pawed, bit and trampled on Mr. Borders.

Returned \$4,000.

Connell Bluffs, Ill., March 23.—Three weeks ago Charles Officer, a banker of this city, lost on the streets of Omaha a package containing \$5,000 in \$50 bills. He offered \$1,000 reward for its return. Last night an unknown man returned \$4,000, saying a messenger boy had found the package and secreted it in an ashbarrel.

Cleveland, March 23.—Senator H. M. Teller of Colorado was asked here yesterday what, in his judgment, would be the Democratic issue in the next presidential campaign.

"Undoubtedly Mr. Bryan will be the choice of his party," promptly replied the senator.

COURT OF INQUIRY

Finishes Its Work at Chicago and Leaves For New York.

Chicago, March 23.—The members of the government board of inquiry have finished their labors here and left for New York last evening. The testimony of Governor Theodore Roosevelt will there be received, after which the court will proceed to Governor's Island.

The evidence brought forth yesterday was largely cumulative in its character, consisting mainly of criticisms of the canned beef and refrigerated beef from soldiers who ate it and watched its effects in Cuba and Porto Rico. W. Clark Marshall, the provision specialist, whose testimony was expected to be sensational, threw no additional light on the question, his evidence being principally the expression of opinion that canned beef as now put on the market is totally unfit for human food.

Legislator Charged With Bribery.

Guthrie, O. T., March 23.—J. O. Walls, Populist member of the territorial assembly, was arrested here yesterday as a result of the grand jury's investigation of the territorial legislature. He is accused of having offered \$75 to Senator Frank C. Hutto, chairman of the special committee on revision of the senate calendar, to advance two bills in which he was interested from the committee of the whole to third reading. Walls gave bail in the sum of \$1,000.

COAL MINERS MEET

Addressed by John Mitchell, the National President of United Mineworkers.

HOCHING VALLEY TROUBLE

Unless an Agreement Is Reached by April 1 a Strike Will Occur—Awful Death of an Old Veteran From Alcoholism—General McKee to Have Charge of State Militia.

Terre Haute, Ind., March 23.—The feature of yesterday's session of the Indiana coal miners' convention was an address by John Mitchell, national president of the United Mine Workers of America. Mr. Mitchell referred to the magnificent organization of the Indiana miners. He stated that the trouble in the Hoching valley was almost settled, but added that unless an agreement was reached by April 1 a strike would be inaugurated. He stated that the Iowa trouble was settled.

The important question which confronts the miners of Indiana, said Mr. Mitchell, is the establishment of an arbitrary scale to offset the difference between pick and machine mining. He warmly advocated the acceptance of colored miners into the union, as he foresaw an inevitable and serious conflict if they were kept out.

The grievance committee made its report, recommending that all entries in pick mines, where they are double shifted, shall be paid for at 25 cents extra per yard, and that machine miners shall be paid an equivalent to pick miners where entries are double shifted.

A few days ago they invaded the wagonworks building, which was closed about a year ago. The works contain several thousand dollars' worth of valuable machinery. The destruction by the boys exceeds a loss of \$1,000. The parents of the accused are trying to settle the affair with a money consideration.

Where the Crabs Come In.

When a school of menhaden make their way into a bay, they may stay for days swimming around in one region. Larger fishes, including perhaps some sharks, feed upon them there. From such feeding there are more or less fragments that sink down through the water, and the various crabs and other crustaceans come scuttling from all parts of the bay to get them. It may be that the tide carries some of the litter about, or perhaps the crabs and other creatures smell it, as bluefish scent the bait that is used in chumming, but when a school of menhaden are preyed upon at the surface all the crabs in the bay congregate on the mud below to catch the crumbs that fall.—New York Sun.

How Genius Succeeds.

Our paternal relatives don't know it all. Riley's father wanted to make a lawyer out of him; it was thought that Bret Harte would make a first class carpenter; it was Mr. Glider's idea that they wanted him to be a job printer. Hamlin Garland started as a farmer and is still a farmer, but makes enough out of literature to keep the farm going. But Hopkinson Smith is of all trades. When he isn't building a viaduct, he is painting a landscape, and when he's tired of that diversion he whistles and writes a novel which sells 30,000 copies every 30 days.—Atlanta Constitution.

A Naval Ceremony That Is Not What It Used to Be.

In the old navy, when United States ships were actually ships with yards, the bos'n's mate's call, "All hands cheer ship" was followed by a much more picturesque ceremony than is possible now, when the vessels of the navy are fitted with but a single yard and that only used for signaling. At the word of command "Man the yards!" there was an amount of acrobatic surrying on the main decks of the old ships that was calculated to make the ship visitor hold his breath, the thing looked so dangerous. The men forward in blue jacket uniform would fairly leap up the rope ladders, and almost by the time the echoes of the command had died away every yard on each mast would support scores of men and boys, all standing erect, most of them only held up by the crossed arms of the men beside them. This representation of a cross was held by all of the men, and it was their business to stand thus with absolute statuteness. Then the command "Cheer ship!" would be bawled out on deck by the chief bos'n's mate, and there would be a yell from cathead to mizzen that couldn't help but warm the blood of everybody within hearing of it. When the men manned the yards with all sail except topsails and stunsails set, such a picture was really beautiful, the men's uniforms of blue standing out in sapphirine contrast to the cameo whiteness of the shrouds. This was a ceremony on all formal occasions, such as the visit aboard the old ships of distinguished men. And "Man the yards!" and "Cheer ship!" were commands always given when one of the old clippers of the United States navy was either departing for or arriving from a foreign station.—Washington Star.

Mrs. T. J. Stafield entertained a number of her friends yesterday afternoon at her home corner of Fifth and Chestnut streets. Refreshments were served in abundance. All present had a royal good time.

No More Rheumatism.

For years my wife suffered from rheumatism. She tried many remedies, but got little benefit, and we had about given up all hope of relief when we heard of Celery King, and my wife began using it. This great medicine has, apparently, driven all the poison out of her system, and has certainly released her from a life of pain.—G. P. Cushing, North Abington, Mass.

Celery King cures diseases of the Nerves, Stomach, Liver and Kidneys. Sold by druggists, 25 and 50c.

A REINCARNATED DOG.

He Hadn't Lost His Human Traits In The Process.

"You can't tell me there is nothing in the theory of reincarnation," remarked a traveling man, "for I know there is. I was down in Florida recently, and in St. Augustine I saw a snob dog—an out and out snob. His name is Towser, and he is just a common yellow dog, lives in the street and belongs to no one.

"In the summer, when no wealthy northern people are in the town, he plays with all the middle class children and dogs and will greet patronizingly the middle class men and women who know him. But in the winter, as soon as the season begins, he attaches himself to some rich New York family, loafs in their yard, tags their footsteps or carriages all about the city, attends them to church and home again and so far as he is able makes himself one of them. For his meals he has been forced to resort to the back yards of a plain, good woman, who pities him and feeds him regularly. He is friendly with her at his eating hours, but never so far forgets himself as to wag his tail at her on the street or when he is with more pretentious people.

"When society functions take place in St. Augustine, there is Towser. Golf matches, afternoon teas, picnics or boating parties, all are attended by him with most conventional regularity. He never greets any ordinary acquaintance when thus socially engaged and has even been known not to eat for several days when a fashionable wedding was on his mind. With the swell dogs of St. Augustine Towser never has any rows, having, no doubt, studied the politic art of being agreeable, but with commoner cuts he is irritable and defensive. That dog has been human in his time, and I'd give a penny to know who he was."—Indianapolis Journal.

AMONG THE CANNIBALS.

A Traveler's Experience With the Man Eaters of West Africa.

Mr. P. A. McCann has had 19 years' actual residence in west Africa. Mr. McCann's seven years' trading and residence with the cannibal tribes of the French Gaboon probably form the most exciting part of his experiences. He got friendly with them and thoroughly studied their habits and customs. They quite believed that the white men ate white men as they themselves ate their fellow blacks. A big chief offered Mr. McCann the smoked thigh of a native. This was considered a gracious act. To refuse it would be unfriendly. Mr. McCann was in a dilemma.

But he feigned illness, said he was not eating just then. The chief eventually put the matter off good naturedly by saying he supposed the white man preferred white man to eat instead of black man. "The Mpongwees," said Mr. McCann, "are in ferocious and pugnacious qualities second to no other tribe in Africa. Their villages mostly consist of a single street from 600 to 1,500 yards long, on each side of which are the houses. In these houses they cook, eat and sleep and keep their store of provisions, the chief of which is smoked game and smoked human flesh, hung up to the rafters.

"Although ferocious and quarrelsome to a degree, they are very industrious. They show considerable skill in the manufacture of pottery, and the designs of their cooking pots, water jars, tobacco pipes and palm wine bottles are extremely artistic. In ironwork they are also skillful workers. Although they kill game for food, they much prefer human meat to any other."—London Globe.

James Mullins, a negro ex-convict, has been sentenced in New York for assaulting and killing Susie Martin in 1894. At the time her headless and limbless body was found in a cellar and her head was discovered in a heap of rubbish about a year later. Another negro, to whom he confessed, gave him away.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative power, that they offer One Hundred dollars for any case that it fails to cure. Send for list of testimonials.

WILD WITH PAIN.

Tortures of Overworked and Wornout Nerves are Almost Unbearable. They are Cured by

Dr. Miles' Nervine.

Nervous debility and diseases arising from disorders and derangements of the nervous system are much more prevalent among women today than they ever were before; which is probably quite largely due to the excessive demands that are being made upon the energies of the average woman. Headache, neuralgia, rheumatism, indigestion, constipation, liver and kidney troubles, disorders of her special organism, impure blood, and lack of proper nutrition are among the most common complaints that have their origin in nerve weakness.

The greater part of the suffering and tortures endured by weak and nervous women could be relieved, and they might be made well and strong, full of vital energy and attractive sweetness, if they would take the proper remedy. Dr. Miles' Nervine is the exact remedy for that large class of persons who are nerve weakened and debilitated, feeble, thin blooded, run down in health, weak, tired and often hysterical.

"About eight years ago I began to experience nervous prostration," writes

Mrs. L. J. Burke, St. Albans, Vt. "My case was indeed a serious one, for it would seem impossible at times to control myself. I could not remain in one position more than a few moments. My limbs would twitch and jerk, and the slightest noise would startle and unnerve me. My sleep was often broken by sudden awakenings, and I would see all kinds of horrid sights. I never thought that I would be well again, but two years ago I began using Dr. Miles' Restorative Nervine, and its effect upon my system was wonderful. In a few weeks I was entirely relieved of my nervous trouble, and my health improved very rapidly. I take pleasure in recommending Dr. Miles' Nervine to sufferers from nervous trouble.

Mrs. Charlotte Elg, of Idaho, Falls, Idaho, writes: "I feel it a pleasure as well as duty which I owe to every overworked and nerveless woman, to tell how I regained my health. I was troubled a great deal with headache and nervousness. The blood would rush to my brain until it seemed as if my head would burst. The least excitement gave me dreadful pain, and would often lose complete control of my nerves. I dragged along in this way for nearly ten years, doctoring all the time, but my condition seemed to grow steadily worse. At last I decided to try the Dr. Miles' Restorative Medicines and I began using Nervine and New Heart Cure. Within a week I felt much improved, and the second week my friends remarked how much better I looked and acted. I continued the medicine for several weeks longer and now my health is good and I can do any kind of work. Dr. Miles' Remedies have made me well."

Sample Treatment Free.

A trial package of Dr. Miles' favorite treatment consisting of Dr. Miles' Restorative Nervine, Dr. Miles' Anti Pain Pills and Dr. Miles' Nerve and Liver Pills, will be sent absolutely free of cost to any person sending name and address on a postal card, requesting the samples and mentioning the name of this paper. Address Dr. Miles Medical Co., Elkhart, Ind.

Fruit growers say there will be few, if any peaches in Indiana this year. The severely cold weather it is said, killed all prospects for the peach crop, at any rate, in this part of the state. There is a difference of opinion regarding the condition of other fruits in the state.

Cream of tartar is expensive, but it is wholesome. Because it is the most healthful ingredient for a baking powder yet discovered, is why it is used in making Cleveland's baking powder, the most wholesome leaven known.

The scene is laid in Vermont and some of the characters are taken from the life and daily habits of the people the author met there. The company presenting the play this season is an efficient one, and in addition to considerable special scenery, a first-class orchestra fills an important part.
